ABOUT US

Trusted Mining Services Built on Over 30 Years of Experience

Over the past 30+ years, Consorcio Tauro Mining has grown from a local mining contractor into a reliable international mining services company, known for delivering safe, efficient, and practical mining solutions.

In 2007, Tauro expanded its operations into Zambia, establishing a strong presence in the Copperbelt and North-Western Province. Since then, we have been actively supporting both underground and surface mining operations in the region.

Today, we are servicing Konkola Copper Mines and Mopani Copper Mines, providing underground mining support at the Mufulira, SOB, and MSV sites, as well as open-pit mining services at Kansanshi Mine in Zambia's North-Western Province.

Beyond Zambia, our experience extends into the Democratic Republic of Congo. In 2013, we worked with Kamoto Copper Company SARL, where we delivered civil works, HDPE pipe installation, water pumping systems, cement backfilling, and equipment hire.

Our operations are supported by a 14,000-square-meter in-house workshop at our head office in Kitwe, allowing us to maintain high safety standards and deliver projects on time.

MISSION

To deliver safe, sustainable, and high-performance mining and construction operations that create lasting value for our stakeholders and communities.

OUR VISION

To be a leading mining and construction company nationally and internationally, recognized for excellence, safety, and trusted partnership with our clients.

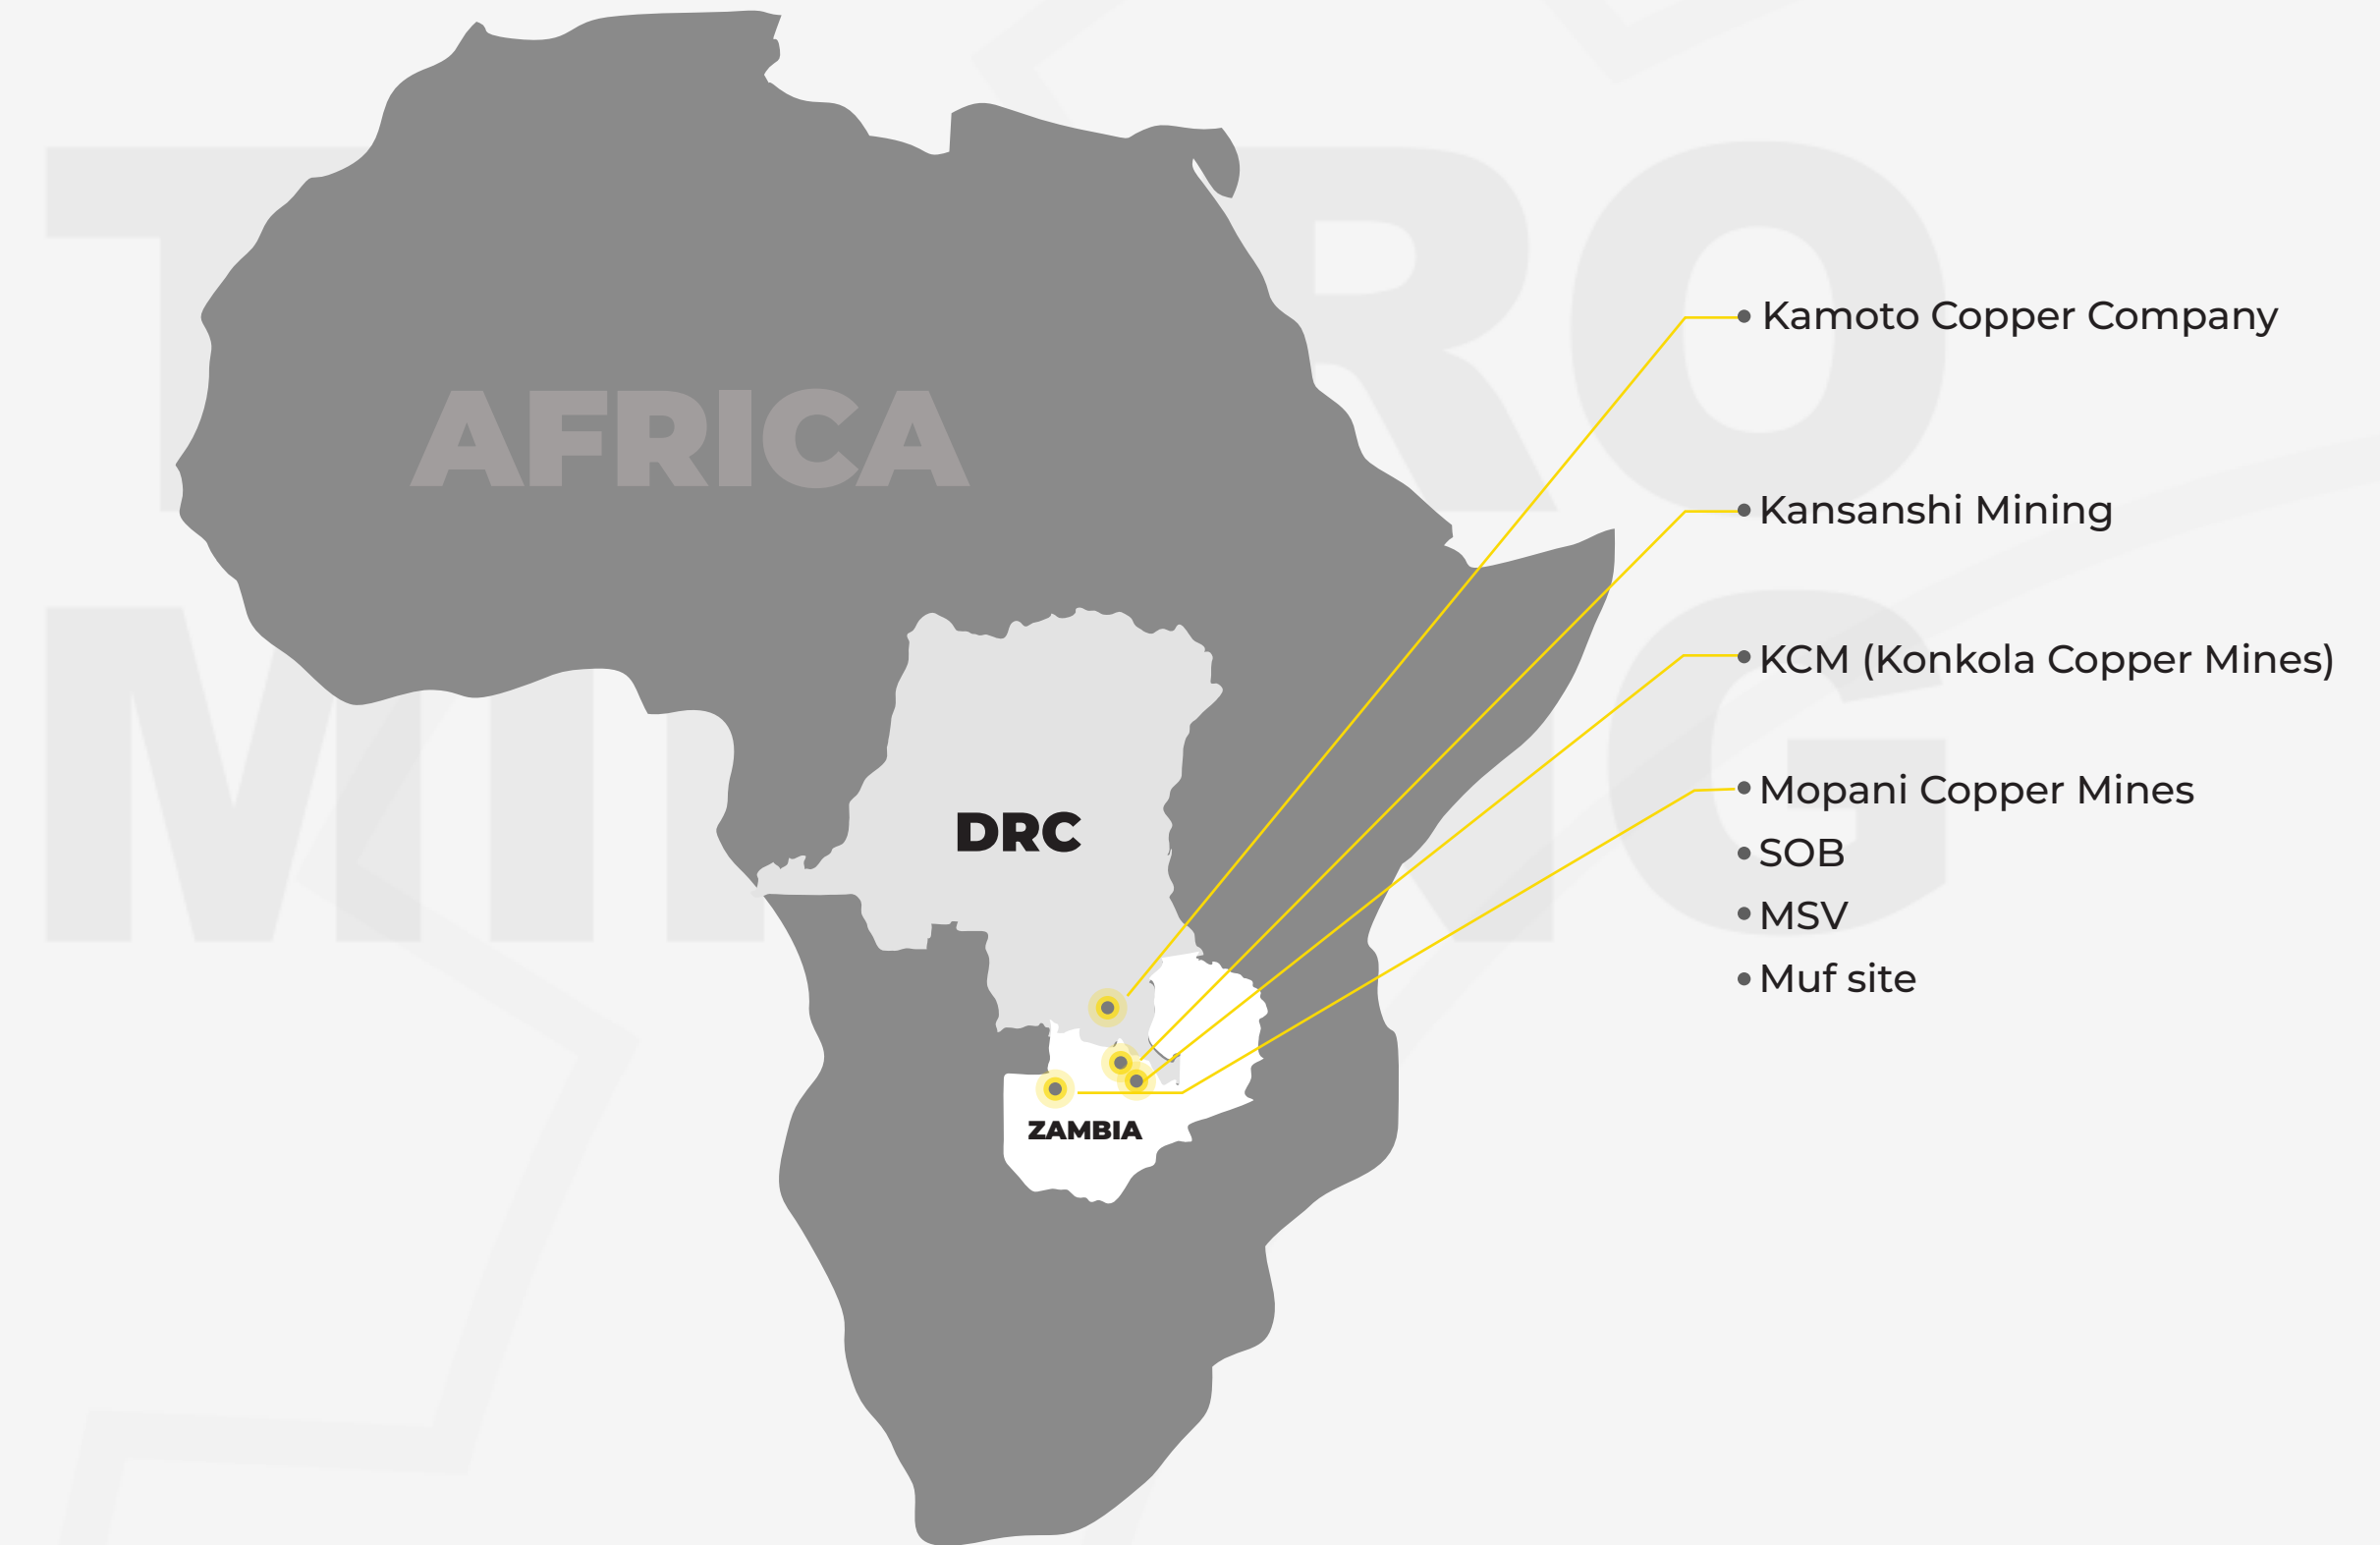

OUR VALUES

1. Safety First
2. Respect for People
3. Excellence
4. Integrity
5. Accountability
6. Environmental Responsibility

WHY PARTNER WITH CTM

- End-to-end mining expertise
- Safety-driven culture
- Highly skilled professionals
- Environmentally compliant

STRENGTHS

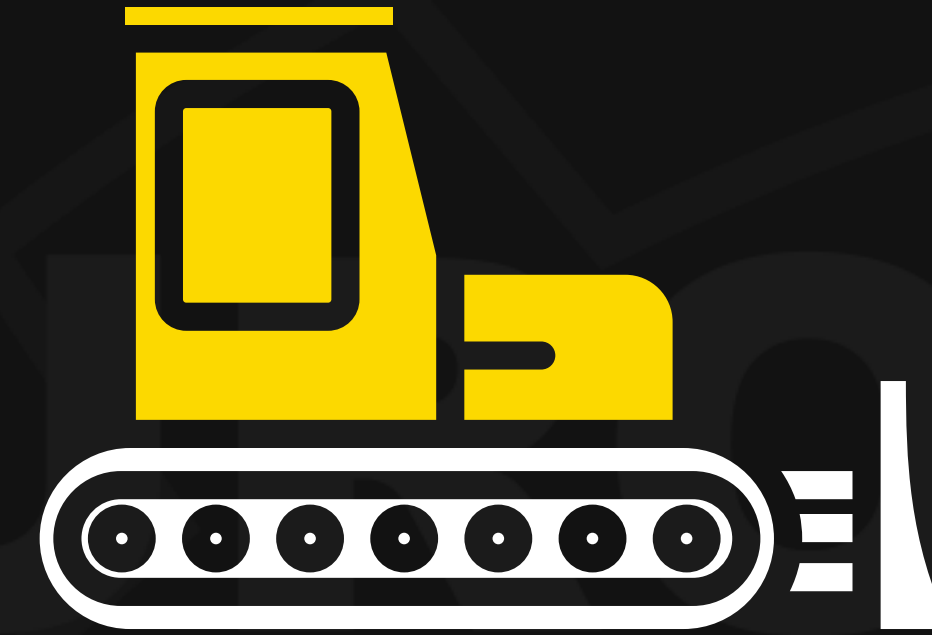

PERSONNEL

We supply qualified and skilled underground mining personnel, trained to deliver safe, efficient, and productive operations tailored to each mine site.

SAFETY

We apply strict safety practices and procedures to protect our workforce and the mine environment, integrating safety, health, and environmental responsibility into all operations.

EQUIPMENT

We provide reliable, well-maintained underground mining equipment for hire, improving efficiency, productivity, and operational performance.
